WILSON'S VICTORY COMPLETE Marvey Relm Only Democrat From Kentucky To Oppose President

A dispatch from Washington Tues-ty night said. The House of Repremght said. The House of Representatives tonight, after one of the most spectacular legislative stringles in national history, voted to repeal the provision of the Panama Canal act exempting American vessels from the payment of tolls. The vote on the bill 247 to 161, a majority of 86 votes in support of the personal plea of President Woodrow. Wilson.

This verdict on the tissue which has assorbed Congress for many weeks, came at the close of a stirring day, made memorable in House annals by a party division which found Speaker Clark, Majority Leader Underwood, and other Democratic chief-tains lined up in open opposition to the President on an issue which the latter had declared vital to his conduct of

the nation's foreign policy. The result is but the beginning of the ylctory for the Administration to the lirst struggle within the party since the democracy took control of the Government a year ago. Tomor-row the bill goes to the Senate, where the fight will be renewed with all the vigor and determination that attended it in the lower house, but where it is certain the president and his friends

Garrard Representative a Factor In Fight For Posimastership

The contest over the Lancaster postmastership bids fair to be further complicated this week, for Representative, J. R. Mount, of Barrard county, left Lancaster for Washington early in the week. Mr. Mount has some time been a receptive candidate for the postmastership at his home town, and with a warm fight on between T. B. Robinson and John M. Farra, may have a chance to prove a

happy compromise.

Representative Monut was one of the very original Wilson men in kentucky and had a material part in carrying barrard county for Wilson in the pre-convention fight, it being one of the few counties in the state to send a Wilson instructed delegation to the state convention. In addition to this, he has always been a warm friend and adherent of Senator Ollie M. James and had several encouraging letters from Bethurum Not Candidate for Congress James.

STAFFORD CONUTY KANSAS Some Farming Country, According to Our Friend "Bud" Reynolds

R. F. D. 4, St. John, Kansas. March 30, 1914 direr of Interior Journal. Stanford, Ky.

I will again write a few lines to my friends through the Interior Jour-nal. We have had a tot of very dis-agreeable weather through February and March, plenty of wind and now it is pretty dry, but which, looks well, I I stated in my last letter that that there is the largest acreage of wheat ever sown in the State. assessor's book for 1913 shows that there were 230,080 acres of wheat Stafford county last year and there great deal more this year. While speaking of the 1914 asses

or's lists which were taken March Isl I will give your readers a few items that will give them an blea of what Stafford county, Kansas, is. Stafford county consists of 22 townships, each six miles square or 506,880 acres, assessed value of \$16,968,817, assessed value of personal property \$5,071,420, population of county 11,732. The list also shows that the county is rapidly dairying and in growing alfalfa. At the time this list was made there were 5.241 imiles valued at \$504.490; cows and sizes 9.548 value \$780,800. There 6.420 value \$218,705; horses all kind and sizes 9.548 value \$780,800. There were 6,411 acres in alfalfa and tigures will be greatly increased this year. I think in a very few years al-lalta will become one of the leading

crops of the county.

The assessor's book also shows that there were 502 automobiles in the county. Each auto owner is charged a license fee of \$5.00, fifty cents of which goes to State Auditor to pay for a number plate and the listing of the four high schools and utnety commo school districts. The common school

term is seven months and may be more but never less. The average salary of common school teachers is \$65 month. Another thing I forgot to mention. as rapidly coming to the front here is the silo. I believe the number of silos

Before I close I must say that I am sorry the State-wide Prohibition bill failed in the legislature in Kentucky, for I know that a prohibition law, such as Kansas has, is a great blessing especially to the rising generation of young men, but I suppose the temperance people are very well satisfied with what was accomplised in that session. The whisky people in Kansas were trying to get the question again before the people for a vote, but when the legislature passed a woman suf-frage law and ratified at the polls, the resubmission question died a natural death. Since the women have a vote it is admitted by the whisky people that Kansas will never again be a whisky state. I do not believe Kentucky will ever be a prohibition state until women vote there..

Now, I have possibly said more than

wishes to all my friends. Very truly

BAD NAME FOR POPLAR GROVE Is Given by Evangelist Barnes, Who Recently Held Meeting There

Yosemite, Casey County, Apr. 3. Rev. R. A. Harnes in telling of his experiences as an evangelist in the South Kentucky Association, said that he had preached in eastern Kentucky, certain what steps will have to be taken to have that hustling little city incorporated so that municipal and peace officers may be chosen. They learned that the law requires that a town to become incorporated, must have at least 125 residents within the limits of the state and that town to least 125 residents within the limits of the people show.

They learned to the people shows the daughters, Maggie and Sylvia were least 125 residents within the limits of the people shows the limits the limits of the people shows the pe the proposed incorporation, and that two-thirds of the voting population must sign a petition for such incorporation.

HARD FIGHT FOR BOND ISSUE Stafe Roads Department Figures What Good Roads Will Mean to Pulaski

Indications are that by the time the State fund created by the 5-cent road tax becomes available a large number of counties will have placed them selves in position to take advantage of State aid by issuing road bond says a news story from Frankfort. Pulaski may be the first with \$300,000 bond issue to be voted on April 24; and Warren will vote on a similar propo-sition May 23, Simpson, Harlan Whit-

ley, Bell and Letcher may follow sint. The law provides that where a county has voted bonds the State shall reimburse it to the extent of hall the amount actually spent on roads under the provisions of the act; so that in-stead of making annual appropriations and doing the work precenteal these counties may lay out their bond issues in constructing a system of highways and enjoy their benefit while paying and loved by all who knew him and and enjoy their benefit while paying was employed by the O. & C., rail- for them. In Pulaski county a contmission is designated to administer the bond issue, the roads must be con-structed under State supervision and according to plans furntshed by the Commissioner of Roads, so that they are assured of the money being pro-

with their crops.

Sturdy Son of Erin Dies at Parksville Nichael Cullen, died at his late resideuce near Parksville last week. Hts death followed a brief illness of pneu-monia. He was born in Maunor Hamilton, Leitrim county, Ireland Easter Sunday, 1832. He came to New York when about 15 years of age, and after residing there a few years, he located in South Carolina. He aided in the construction of a railroad leading into the state of Georgia, where he met Miss Martha Holenild, whom he married. He has a fine mechanic and un-til one of his limbs was broken a second time, was actively engaged in working at his trade. He was a devout Catholic, and received the fast rites of his ehurch, a short time prior to his death, the Rev. Father Osmond, of Danville officiating. He is survived by an aged widow, one daughter, Mrs. Mary Bruce of Boyle county, and four sons, Bernard and John Cullen, of California and Michael and James

Cullen, of Gay, Lll. The remains were buried at Parksville. Heard His Own Funeral Preached

Some days ago Will Lane, a colord man, who was tried at the last term of the Bell Circuit Court for the nurder of his wife and given a death sentence, was allowed to be taken from the jail at Pineville, under guard, to be paptized in the Cumberland and to hear his own funeral sermon preached by the colored minister. At the con-clusion of the sermon Lane made a tarewell address to his friends, and the proceedings were most unusual. The day for his electrocution was set by the Bell Circuit Court for May 8, hut an appeal has been taken by his attorneys to the Court of Appeals.

How to Detect the Alum Baking Powder

"Which are the alum baking powders; how can I avoid them unless they are named? asks a housekeeper.

Here is one way: take the can of a lowpriced powder in your hand and read the angredient clause upon the back label. The law requires that if the powder contains alum that fact must be there stated. If you find one of the ingredients named alum, or sulphate of aluminum, you have found an alum baking powder.

There is another and a better way. You don't have to know the names of the alum powders. Use Royal Baking Powder only; that assures you a cream of tartar powder, and the purest and most healthful baking powder beyond question.
